KLEEMANN freeSTAIR

Freedom to move

KLEEMANN FreeSTAIR is the steady choice for movement with freedom, independence and safety. Advanced technology meets simple operation to offer you a fully controllable system that can be custom-made to your own needs.

Available in two types: **KLEEMANN freeSTAIR** with a chair and **KLEEMANN freeSTAIR** with a platform for a wheelchair.

KLEEMANN freeSTAIR Stairlift System with seat

Customised to Your Needs

The freeSTAIR system with chair has been specially designed to help persons of all ages who have difficulty climbing stairs. The systems can be fitted to any staircase, whether indoor or outdoor, as they are custom-made for each individual application. FreeSTAIR can be installed in homes with both straight or curved staircases, and where the installation of a Maisonlift is impossible. Kleemann FREEstair is available in a number of different types, one of which is certain to meet the needs of any user.
